

## L to J Folder Directions

Each week the class will take an 8 question quiz. The questions will be chosen at random from the list of 8<sup>th</sup> grade essential skills you were given. 1 or 2 questions will come from the 7<sup>th</sup> grade essential skills list that you should have mastered already.

You are expected to gradually improve on the quizzes. It is possible that we could have a quiz in which only 1 or 2 questions are from material that has been covered. By the end of the year you should be able to answer all of the questions correctly. This is being done so you can see your improvement throughout the year.

The following steps will be done each week:

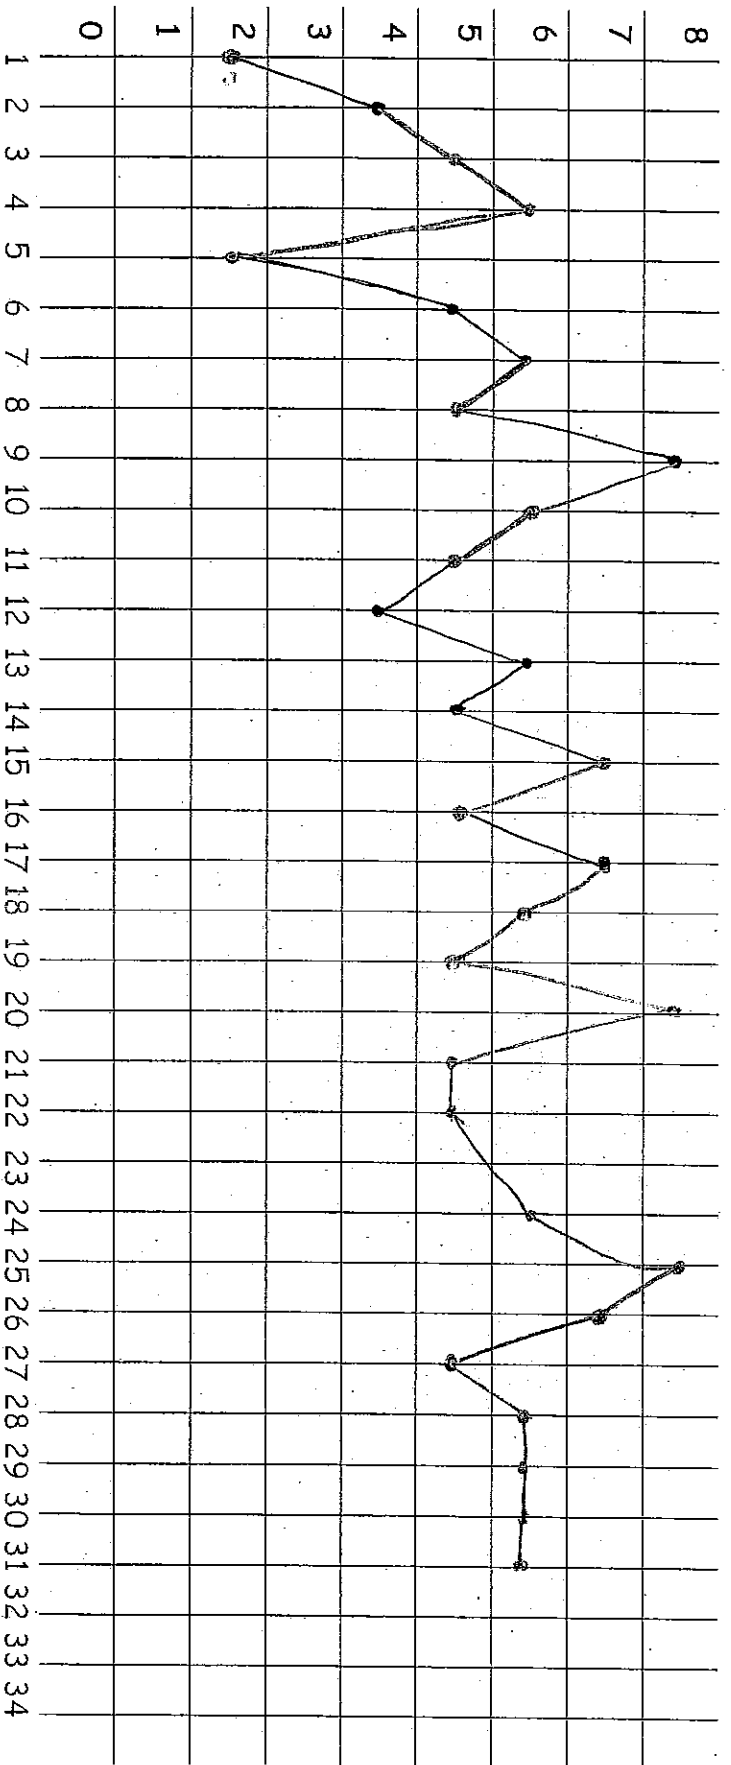

1. Randomly selected quiz will be given. In your folder is an answer sheet for this quiz.
2. In class, the quiz will be corrected and discussed. A grade is not put in the grade book for this.
3. You will fill out the small chart to hand in that will state which skills you got correct.
4. Complete Student Run Chart.
5. Complete Class Scatter Diagram as a group.
6. Complete Class Run Chart.
7. The large charts will be completed.
8. Complete Histograms.

Again, these quizzes are not graded. The hope is that you will watch yourself, as well as your class, improve.
